

SITE LIGHT 30

30,000 lumen construction site light illuminating large areas

ORIGINAL SCANGRIP

SINCE 1906

MADE IN DENMARK

Compact construction site light providing extremely high performance and outstanding flexibility at a very attractive price. Based on the newest state-of-the-art LED technology, SITE LIGHT 30 provides up to 30,000 lumen and a wide 120° beam angle, ensuring super bright illumination of a large work area.

SITE LIGHT 30 is supplied with a dimmer function and BLUETOOTH light control that enable you to turn on/off the work light and adjust the light in four different levels remotely through your mobile device. When the work light is mounted on a high mast, this feature reduces the power consumption on an everyday basis as you only use the amount of light necessary to do the job.

The work light is designed with a built-in handle for easy carrying and mounting on tripods and masts. Weighing only 4.95 kg, SITE LIGHT 30 is very compact and low weight compared to other solutions on the market, which makes the mounting of the work light more convenient and safer. As accessory we offer a dual bracket for positioning of two SITE LIGHT 30.

The SITE LIGHT 30 is completely dust and waterproof (IP65) and tolerates all kinds of weather conditions from -25° to +40°C. Featuring high-quality components and active cooling, SITE LIGHT 30 has a long lifetime and keeps a high performance level throughout the day.

SITE LIGHT 30 is made in Denmark and illuminates the building site according to the EN12464-2 standard.

Incl. DIN14640 connection adapter with bracket for mounting on a tripod.
