

EASYBENCH 1

The 2-in-1 solution for light structural repairs.

089341

Much more than just a bench, the EASYBENCH 1 is an essential part of your workshop. Comprising a lifting table reaching 1.60 m, and a 5-tonne capacity pulling arm, it serves as an invaluable daily accessory for any workshop environment, ensuring you can work at the right height, and carry out any collision repairs. This robust, yet quick and easy-to-use system, offers versatility and productivity. The compact design will save you valuable workspace.

Complete lifting system:

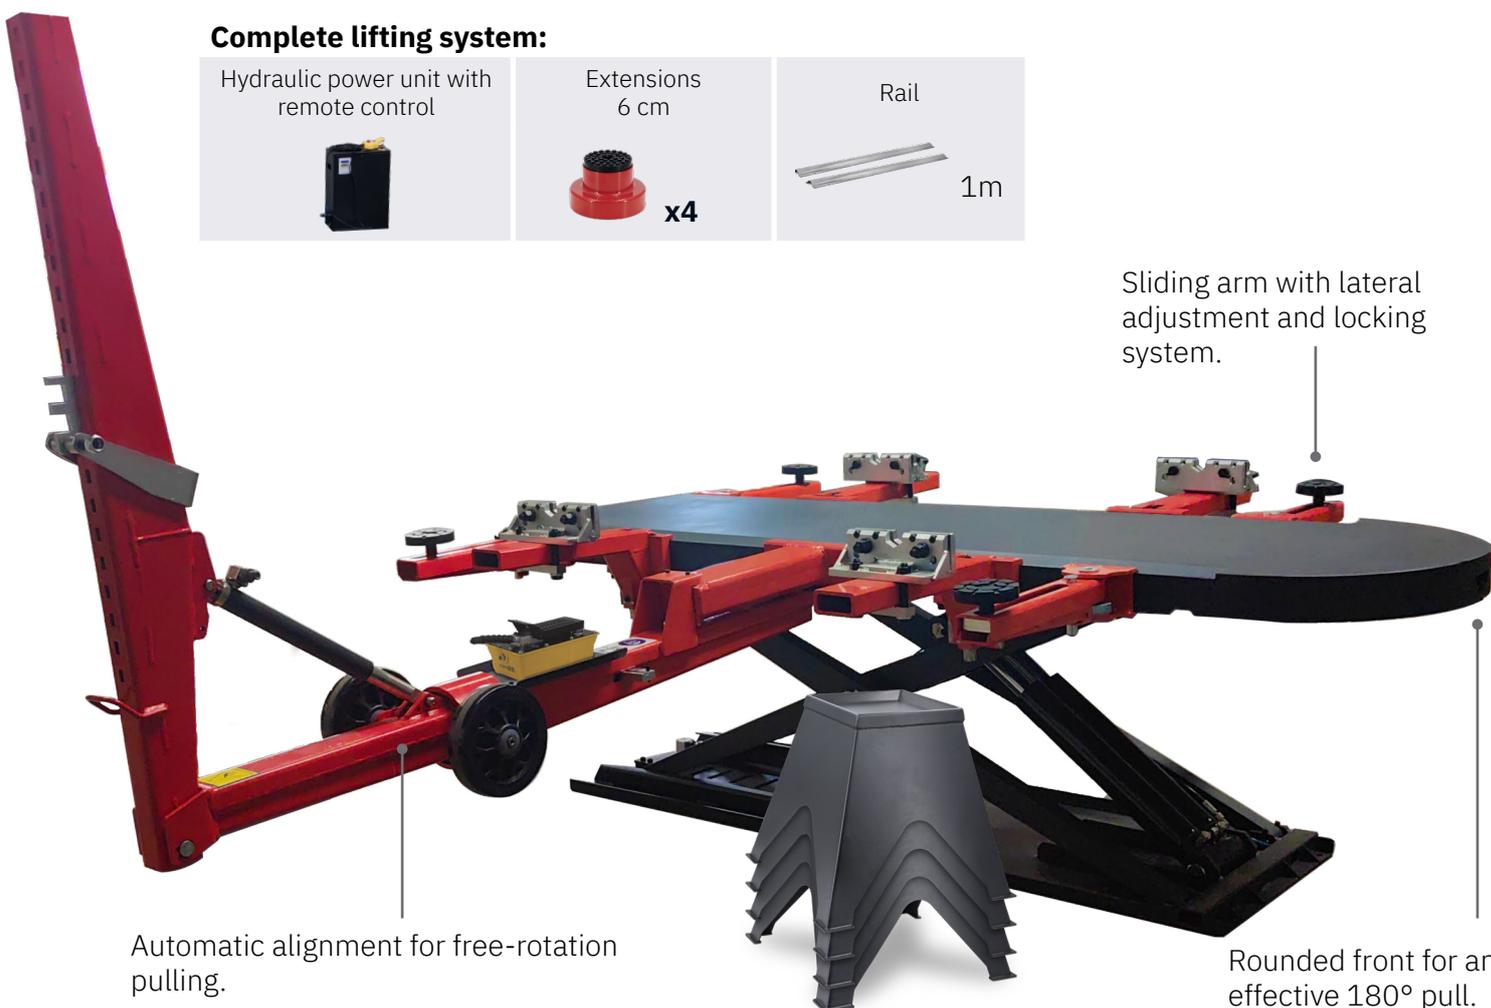

Hydraulic power unit with remote control

Extensions 6 cm

Rail

Sliding arm with lateral adjustment and locking system.

Automatic alignment for free-rotation pulling.

Rounded front for an effective 180° pull.

Features

The lifting arms swivel and slide on the table. The extensions can be used to accommodate any type of vehicle.

The support arm clamps are slidable and height-adjustable. The clamps can be used to secure the edges of the car, or to hold specific accessories fitted to the vehicle.

The sliding side pulling support lets you position the bracket in the best possible position.

Positioning sensor for easy bracket placement.
